
Your Dog,

Your Responsibility.

Everyone has heard the old axiom that "A dog is a man's best friend." They provide us with companionship, affection and protection and deserve both your protection and ours in return for their loyalty. In a big city like Akron, dogs can cause problems. Unleashed dogs may tear up trash bags on neighbors' lawns, chase mail carriers or delivery persons and frighten or bite other people or animals. Dogs that constantly bark or howl can be annoying, as well as keep people awake during the night. These types of problems can be eliminated when pet owners understand their responsibilities. It is the duty of the Animal Control Warden to enforce all City Ordinances pertaining to dogs and issue citations to those individuals who are in violation of these ordinances.

This pamphlet has been prepared so that you as a pet owner will have a better understanding of your dog and your responsibilities.

POLICY ON WILDLIFE CALLS ON PRIVATE PROPERTY

This policy statement addresses calls for service from the public concerning wildlife on private property. The primary responsibility of City of Akron Animal Control is to enforce City Ordinances and/or Ohio Revised Code as it pertains to domestic animals (i.e. dogs). Ordinances concerning the keeping of exotic animals are the purview of the Akron Health Department.

While the City understands that wildlife can be a nuisance and cause damage to private property, this agency is not responsible for wildlife control. However, an Animal Control Warden may remove wildlife, **for a fee**, that has been trapped by the property owner and left in the trap or captured and secured in a box. Animal Wardens will not attempt to capture or remove deer from private property.

In order to reduce problems associated with nuisance animals, home owners should attempt to eliminate sources of food that these animals scavenge. Make sure lids on refuse containers are tightly secured and weighted down, if necessary, to discourage raccoons and opossums. Persons whose residence or property abut the Metro Parks, Cuyahoga Valley Recreation area other wooded

locations, are advised that this agency will not issue traps for the areas. Calls for service concerning wildlife will be handled in the order received and based upon the availability of Animal Control personnel.

Nuisance animals include raccoons, opossums, squirrels, groundhogs (woodchucks), muskrats, foxes, bats, weasels, mink, and rabbits. The following policy is in place for nuisance wildlife:

1. For a \$25.00 deposit the Animal Control Warden can provide the use of a live trap, based upon availability; A signed release, holding the City harmless for any and all liability resulting in use of the trap, and a twenty dollar (\$20.00) disposal fee for each captured adult animal or each litter is required.
2. Trapping of nuisance wildlife is limited to native, non-domestic quadrupeds (i.e. raccoons, opossums, etc.). Traps will not be issued for trapping of squirrels out-of-doors. For skunks, consult a nuisance trapper.
3. Other than removing confined wildlife (i.e. in a trap or secured in a box) the Animal Warden will not attempt to capture these animals on private property, except as noted under section 8, below.
4. Problems inside dwellings, attics, etc., should be referred to private individuals (locally licensed trappers) as listed in the Summit County Nuisance Wild Animal Trappers list. Consult the Ameritech Yellow Pages under Pest Control Services and/or under Animal Removal Services for firms engaged in nuisance animal removal.
5. Current policy involving removal of live trapped nuisance wildlife requires all animals be euthanized, this is a mandate from the State of Ohio, Dept. of Natural Resources. Animals are not released in Metro Parks, wooded areas, or outside corporate limits.
6. The Animal Warden will not remove wildlife from inside dwellings, garages, sheds, ceilings, attics, walls, crawl spaces, under porches, eaves, in fireplaces, chimneys or flues, on roofs, in garbage cans, dumpsters, culverts, inlets, or trees.
7. The same rules concerning dead animals on private property pertains to dead wildlife. The caller must securely double bag, in plastic, and place it on the curb for removal.
8. Sick and/or injured wildlife or wildlife that has inflicted a bite on a domestic animal or human may be removed from private property, when feasible. Each instance will be investigated on a case by case basis. Test specimens will be submitted for rabies testing in concert with current bite protocol or upon the recommendation of the Akron Health Director or his designate.
